Risk Analysis and Management System

- | | | |
|---------------------------|------------------------------|-------------------------------|
| 1. Capsized Waka | 2. Unknown medical condition | 3. Knocked unconscious by Ama |
| 4. Slipping on Ramp | 5. Ramp and car park traffic | 6. Gear failure |
| 7. Cutting feet on rocks. | 8. Cannot recover from trip | |

	Casual Factors	Risk Reduction Strategies
People: Skill Attitude Age Fitness Ratio Experience Health	Inexperience of Paddlers: <ol style="list-style-type: none"> 1. Waka tipping, cannot recover 2. Medical condition (asthma etc.) 3. Knocked unconscious by Ama. 4. Panic in the water. 5. Wearing no footwear. (Cut feet.) 6. Slippery ramp 	Experienced instructor: <ul style="list-style-type: none"> • Session checklist of all ailments/medication of Paddlers. • 1:5 ratio of Paddlers to experienced kaihoe. • Paddlers to wear appropriate clothing. • Paddlers to wear appropriate footwear. • All sessions to be conducted within the crew capabilities • All waka to carry emergency kit and spare lash • Dry tipping drill before going on water. • All Paddlers 14yrs and under to wear PFD's. • Waka must have a PFD for each paddler
Equipment: Clothing Shelter Transport Activity Specific Gear Safety	Bailer lost when tipping Appropriate clothing Ama coming undone or knocked off	Safety check pre-session Spare paddle Carry extra lashing Carry communication device Wear appropriate clothing Dry-bag with first aid kit and flare
Environment: Weather Terrain Water Season	Rough or Cold Weather	Paddling session to be conducted within crew and steersman capability. Take into account the wind, the weather, the tide and ability of both crew and steersman's If in doubt, don't go out. Blanket rule for Club OC1/2. If there are extensive whitecaps in the haven don't go out.

Emergency Procedure to manage each identified risk:

1. Steersman talks Paddlers through the up righting of a waka.
2. Steersman to give first aid assistance and call 111. Then safely recovers the person to the waka and takes person to shore to await ambulance.
3. Steersman to recover Paddler in the water recovery position and await assistance of the safety boat. Safety office to take the person immediately to the medical centre for attention.
4. Steersman to take charge of the person. Safety Boats takes the person to shore if needed.

Emergency Gear required:

1. Charged cell phone/communication device.
2. First Aid
3. Spare Bailers
4. Spare Hoe
5. Flares/ spare lashing.
6. Lights at night
